SUBJECT: MIGRATORY BIRD SPECIES LIST FOR U. S. FISH AND WILDLIFE SERVICE
GENERAL NEST REMOVAL PERMIT - MBM - 085 - 95

On September 19, 1995, you transmitted a request from Gail Hill, DOE, RFFO that Ecology personnel compile a list of bird species for which nest removal from buildings and structures at Rocky Flats Environmental Technology Site is most likely. Attached is a list of species most likely to build on or near buildings and structures. It is our understanding that no active nests will be removed under the proposed permit, and that Ecologists will make the final determination on nest activity prior to nest removal.

Should you have comments or questions, please feel free to contact me at extension 3560 .
